BoxPower's containerized microgrids are designed to provide continuous power in remote, off-grid applications by incorporating a combination of solar energy, energy storage systems, and

Turnkey, software-enabled microgrids by BoxPower provide fast, resilient energy solutions with modular solar, battery, and hybrid systems.

With BOXED Solar, you will find the battery-based power system of the right size for your application. Our complete off-grid systems include everything from the solar

H2Pro and Doral Hydrogen announce a groundbreaking project in Spain to produce green hydrogen using only off-grid solar power, featuring innovative electrolysis technology for direct gas grid injection.

No matter your industry, BoxPower provides scalable, reliable energy solutions that reduce costs, improve sustainability, and enhance resilience. Energy Resilience:

BoxPower is a California startup with a new approach to microgrids and decentralized solar energy. Our modular power systems are plug & play - solar + storage microgrids that can be shipped anywhere

A report details the U.S. solar industry's record 2025, adding 43 GW and leading new power capacity for the fifth consecutive year, with strong growth across states and domestic manufacturing.
